EDUCATOR GUIDE 2025 - 2026

PERMANENT EXHIBIT INFORMATION

INNOVATION STUDIOS

In Innovation Studios, you can invent, doodle, design, explore, and imagine! Whether you're young or just young-at-heart, there's no better way to discover the world than with your hands. In the Studios, you set your own agenda and chart your own path. The possibilities are endless—what will you choose?

PLAINS GALLERY

Explore the rich, intertwined history of the American bison and the indigenous peoples of the Great Plains. Learn about the many conservation efforts currently underway to protect and grow the American bison population. Featured is the bison robe worn by Cynthia Ann Parker, mother of the last Comanche Chief, Quanah Parker.

DINODIG® AND DINOLABS

Learn about dinosaurs that roamed in your own backyard millions of years ago and bring them to life using creativity and imagination! In DinoLabs you'll discover dinosaur skeletons native to North Texas and cutting-edge technology that brings the experience to life! Explore DinoDig® and see what you discover in a replica field site.

CATTLE RAISERS MUSEUM

Learn the story of the cattle industry from its origins among the West's early Spanish settlers through the heyday of the legendary drovers, all the way to today's modern range technology. The exhibits show the important role Texas and Southwestern cattle raisers play in protecting natural resources as frontline stewards of land, livestock, and wildlife.

CHILDREN'S MUSEUM

Explore and play in the healthy kids' clinic and kid-sized grocery store. Engineer your own train system or structure in our construction zone. Investigate our natural science area. Meet "Summit" our larger-than-life therapy dog! Visit the out of this world Galaxy Park Playground. Sensory room and parents' room are available in this space. **Exhibit is exclusively for Pre-K through 2nd grade students*

Be a Member
Teachers receive a 10% discount on membership and free admission to exhibits all year long!

SPECIAL EXHIBITS

Barbie™ You Can Be Anything: The Experience

October 11, 2025 - January 25, 2026

Discover Barbie's inspiring journey, explore 60 years of career dolls, meet boundary-breaking role models, and enjoy hands-on fun with themed play zones, and photo ops for all ages.

DC Super Heroes™: Discover Your Superpowers

October 11, 2025 - January 25, 2026

Step into the action with Batman™, Superman™, Wonder Woman™, and more in this interactive experience. Test your skills and see if you have what it takes to save the day!

From Waste to Wonder

February 14, 2026 - May 24, 2026

Explore the intersection of art and environmental responsibility through the creative reuse of materials, inspired by artist Willie Cole's water bottle sculpture.

UPCOMING EVENTS

Chemistry Week | October 23 - 25, 2025

Celebrate National Chemistry Week by learning through hands-on activities and demonstrations!

Engineers Week | February 12 - 14, 2026

Create, build, and learn through various activities dedicated to ensuring the understanding of and interest in engineering and technology careers.

Earth Day | April 22, 2026

This celebration features activities focused on environmental awareness and conservation.

Fort Worth Stock Show & Rodeo | January 16 - February 7, 2026

Get free admission to the Moo-seum when you purchase a general admission ticket to the Fort Worth Stock Show & Rodeo!

Sensory Saturdays | See Museum website for dates

These days are designed to be lower stimulation by reducing the number of people, lighting and noise within the Museum.

FIELD TRIP PRICING

For every ten children, you may bring one free educator or adult chaperone.

EXPERIENCES	STUDENT	CHAPERONES
Exhibits	\$5.00	\$16.00
Planetarium	\$3.00	\$4.00
Omni Theater	\$8.00	\$15.00
Omni + Planetarium	\$11.00	\$19.00
Exhibits + Experience Combo		
(+) Planetarium	\$8.00	\$20.00
(+) Omni Theater	\$13.00	\$31.00
(+) Omni + Planetarium	\$16.00	\$35.00

EXPERIENCES

THE JANE & JOHN JUSTIN FOUNDATION OMNI THEATER

Step inside the Jane & John Justin Foundation Omni Theater and embark on an unforgettable journey through science and history. In this spectacular 8K LED dome theater, students can dive into the ocean, soar through nature, or explore the wonders of our planet with stunning detail and surround sound. With nearly 12,000 LED modules illuminating the dome, each film transforms science and history into an immersive experience that sparks curiosity and inspires discovery.

- Animal Kingdom (K - 5th) | *Film ends 12/05/2025*
- Serengeti (K - 8th) | *Film begins 02/16/2025*
- Butterfly Journey (K - 8th) | *Film ends 12/05/2025*
- Great Bear Rainforest (K - 12th)
- Shark Kingdom (3rd - 8th)
- Wild Rescue (3rd - 8th)
- Cities of the Future (3rd - 12th)

THE NOBLE SPACE GALLERY AND PLANETARIUM

Join our live presenters in the Noble Planetarium and be transported to outer space! In this 40-foot dome theater, students can learn about the sun, earth, and moon, explore the solar system, gaze at the night sky, or travel to the far reaches of our universe. The newly renovated Noble Planetarium gallery features a variety of interactive activities, meteorites, and the Science on a Sphere, which can map in 4K detail any object in the solar system.

NOBLE PLANETARIUM SHOWS

- **Sun, Earth, Moon**
25 - 45 Minutes | Grades: 2nd - 5th
- **One World, One Sky: Big Bird's Adventure**
25 Minutes | Grades: Pre-K - 1st | **ENGLISH & SPANISH**
- **Live at the Noble: Our Solar System**
25 Minutes | Grades: 3rd - 8th
- **Live at the Noble: Texas Sky Tonight**
25 - 45 Minutes | Grades: 3rd - 12th
- **Mars: The Ultimate Voyage**
25 Minutes | Grades: 4th - 8th
- **Cosmic Mashups: Gravity, Galaxies, and Supermassive Black Holes**
25 Minutes | Grades: 6th - 12th
- **5,000 Eyes**
25 Minutes | Grades 6th - 12th
- **This is Your Captain Speaking**
10 Minutes | Grades: Pre-K - 2nd
- **Science Through Shadows**
10 Minutes | Grades: 3rd - 8th

SCHOOL & FAMILY PROGRAMS

Family Museum Night

At Family Museum Night, your students and their families come to the Museum for an exciting night of exhibits, planetarium shows, and hands-on science demonstrations. Our staff will facilitate interaction with participants and the exhibits.

Discovery Lab on Wheels

Bring the Museum to your classroom or organization with the Fort Worth Museum of Science and History's Discovery Lab on Wheels! After looking through our TEKS-based program options, if you don't see something that meets your needs, contact us and we can design a program for you!

Museum School | Ages 3 - 6

For over seventy years Museum School has introduced children to the wonders of the world around them. Young children are encouraged to discover and dream of one day becoming astronauts, engineers, historians, paleontologists and so much more through their encounters with real objects and real stories in this weekly science enrichment programs.

Family STEAM Festival

The Family STEAM Festival program brings a wide variety of hands-on activities to your school for your students and families to enjoy. Our staff will set up and take down the program and facilitate participant interaction throughout the program.

Mobile Noble Planetarium

Bring the Noble Planetarium experience to your school with the Mobile Noble Planetarium! In our 20-foot-wide portable dome, our expert staff will guide your students through our solar system, the night sky, and so much more!

STEM Squad | K - 4th

STEM Squad expands the reach of the Museum School program into grades K - 4th. The engaging classroom environments and activities are facilitated by enthusiastic educators who support the joy of learning through discovery. Specimens and artifacts from the Museum's teaching collection are featured in the various class topics that are always engineering focused with a creative slant.
