

It's Time for Some Grown-Up Fun at Science on Tap

Human Biology, Cool Technology and Some Veterinary Science Just for Fun

Fort Worth, TX – Have you ever wondered what makes you sneeze? Thought about what a virtual reality version of Operation might be like? It's time for some grown-up fun at the Fort Worth Museum of Science and History on Friday, July 20 from 6 – 10 PM.

It's Science on Tap: Human Biology and Cool Technology! It's an after-hours Museum experience where you can geek out at a variety of chats by UNT Health Science Center experts, learn about the latest in VR technology and sample local artisan food and beverages. Try a craft beer or specialty beverage and enjoy the music of Adrian Garza, the Modern One Man Band all night! Explore the Cattle Raisers Museum, too – where you can watch a cow heart dissection performed by Dr. Stetson B. Miller from Cross Timbers Veterinary Hospital, Inc. The Cattle Raisers Museum team will also perform a cow eye dissection, to demonstrate how it functions.

And don't forget, it's okay to be a kid at heart, but you must have a valid 21+ ID to attend Science on Tap. Tickets are on sale now! Tickets are \$20 for non-members and \$15 for members. Guests will receive one free beer, wine, soda or water per ticket when tickets are purchased in advance. To learn more about Science on Tap and buy tickets click [here](#).

About the Fort Worth Museum of Science and History

The Museum was established in 1941 and is accredited by the American Alliance of Museums. Anchored by its rich collections, the Museum is dedicated to lifelong learning. It engages guests through creative, vibrant programs and exhibits interpreting science and the history of Texas and the Southwest. The Museum is open daily, except Thanksgiving, Christmas Eve and Christmas Day. Visit www.fortworthmuseum.org for more.
