

BLAST OFF WITH THE MUSEUM THIS SUMMER!

Have the Fort Worth Museum of Science and History visit your library this summer. All programs include hands-on activities for your patrons.

TOPICS INCLUDE:

★ **Sunshine Shenanigans**

Learn about how the sun gives off UVA and UVB light

★ **The Big Dipper**

Participants will learn about the Big Dipper constellation and make a 3-D model of it

★ **Phases of the Moon**

Participants will learn about the phases of the moon with some hands on activities (one involves Oreos)

★ **Out in Space**

Participants will play a game about what they need to survive in space and create a sample of a space suit that will protect them in space

★ **Chemical Reaction Rockets**

Participants will learn about how real rockets work and then create various rockets using chemical reactions

PRICING:

\$125/hour; \$75/hour for each additional hour
