

The following pages are provided as examples of acceptable immunization records. Records should be limited to 1-2 pages and should not include a child's online medical portal, health history or sensitive information.

An electronic immunization record must include the clinic contact information and the provider's signature/stamp.

Please scan documents as PDF files. Photos are difficult to read and are strongly discouraged.

(Note: Personal identification information and doctor's information have been removed from the following examples.)

Thank you,

Museum School
